An ERASMUS+ project, 2014-2016

Professional journey - An individual is standing on a start of a long road. The road represents the career path. The feet can be anyone. The person is thinking about their future because everyone is responsible for their own career. The symbolic meaning of this photo is that everyone needs to stay firmly on their feet, be focused on moving forward. This is an individual path to achieving goals and make progress.

It represents progression.

It exists because if people want to be successful in their lives they need to take ownership of their career, be motivated and patient.

Entrepreneurship to live - In this photo some are selling food for living and the others are buying for living. The picture is really interesting because the trade is on the boat.

We can see a great picture symbolizing buying food for living, entrepreneurship, flexibility, and creativity. The picture also shows survival and challenging life. This picture was chosen because it presents part of our daily life which is related to us. It exists because these people may be lack of skills and that they cannot get a better job but they are creative as entrepreneurs.
